## OUR PRODUCT RANGE

**6 COFFEE****COFFEE**

Coffee Makers, Coffee Mills, Espresso Makers, Fully Automatic Coffee Machines, Milk Frothers

**30 BREAKFAST****BREAKFAST**

Automatic Toasters, Jug Kettles, Egg Boilers, Lemon Squeezers, Yoghurt Maker

**52 KITCHEN****KITCHEN**

Bag Sealer, Blenders, Breadmaker, Crêpes Makers, Deep Fryers, Electric Can Opener, Electric Kitchen Scales, Electric Knife, Electric Universal Slicers, Food Chopper, Food Mixers, Food Processors, Fruit Dryer, Hand Blenders, Ice-Cream Maker, James the Wondermachine, Juice Extractors, Microwaves, Multi-Cooker, Multi-Grater, Multimixer, Popcorn Maker, Preserving Boilers, Sandwich-Toasters, Smoothie Mix & Go, Sous-Vide Cooker, Slow Juicer, Table Stoves, Toast Ovens, Vacuum Sealer, Wafer Maker, Waffle Makers

**94 BARBECUE****BARBECUE**

Automatic Grills, Barbecue Grills, Electric Cool Box, Fondue Sets, Raclettes, Table Grill

**112 HOUSEHOLD****HOUSEHOLD**

Dry Iron, Fluff Razor, Rechargeable Vacuum Cleaners, Steam Dry Irons

**120 PERSONAL CARE****PERSONAL CARE**

Bathroom Scales, Foot Massager, Hair Curlers, Hair Cutting Sets, Hair Straighteners, Hairdryers, Hot-Air Hair Curlers

## Our know-how in the kitchen

**Our products make faithful kitchen assistants every day.**

Since the beginning of the year 2014, nearly a dozen of our products have received either a **design prize** or **outstanding test ratings**.

One particular highlight for SEVERIN is this year's new addition to our family, the wonder machine »James«: Always friendly but up to any task, the unmistakable character of our new multi-functional kitchen appliance will become an established part of our range and will impress with its wide variety of functions and uses that are just waiting to be discovered by you and your creative streak.

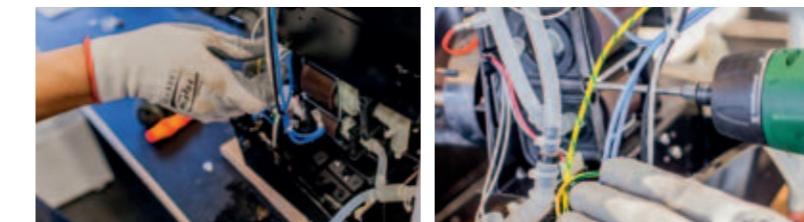

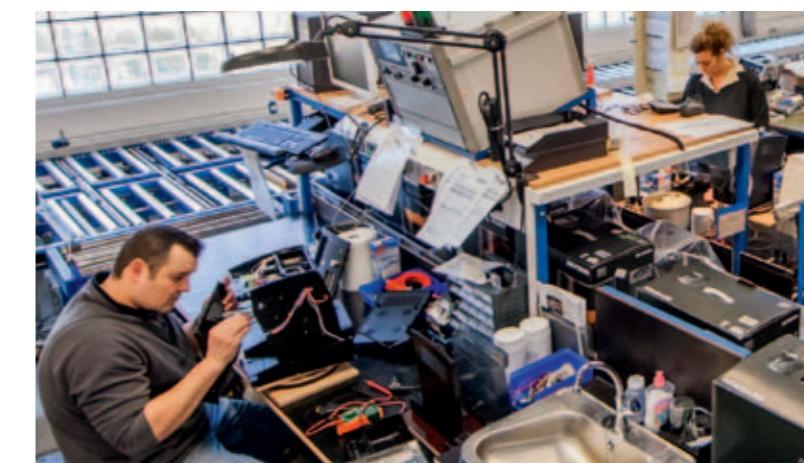

★★★  
**GERMAN  
QUALITY**  
since 1892

## Excellent brand quality. In demand all over the world.

Achieving maximum impact with top-class quality – that's the challenge we set ourselves every day. Excellent technology, high practicality and absolutely solid value are therefore important fundamental properties that are reflected in every SEVERIN brand product which make them reliable companions in your day-to-day life. Whether it's our coffee machines, kitchen appliances, grills, hair or body care products – many years of know-how and passion for extraordinary product quality go into every device. The "German Quality since 1892" seal and our leading position on numerous markets prove to us that our efforts have been worthwhile and inspire us to continue making more customers happy all over the world.

It goes without saying that we also want to achieve this by being available to you with help and advice. If you have any questions or suggestions relating to our products or the SEVERIN brand, our Customer Service team would be pleased to assist you and will deal quickly with your concerns.

For over 120 years, the SEVERIN brand has been synonymous with uncompromising quality, absolute reliability and innovations that make everyday life easier.

We have invested a lot in our research and development with the aim of enthusing our customers. And we've succeeded. Over the past 24 months alone, we have been able to register a large number of patents and launch over 70 new products – from coffee machines to toasters to mixer – onto the market. We are especially proud of one reward for our efforts: We have been awarded the „TOP100 Seal“ and are now officially one of Germany's most innovative medium-sized companies. For myself and my colleagues, this award is not only an acknowledgement but also an incentive to continue along the same road.

Rudolf Schulte  
Managing Director

# Coffee

Whether it's a creamy and delicate Cappuccino, a perfect Latte Macchiato with a dollop of fluffy milk froth on top or a little black refresher with its incomparable aromatic note: for those "Italian" moments in life, the automatic coffee machines from our extensive range will always deliver optimum pleasure. And they cover all bases with their innovative technologies – such as the practical induction milk frother that transforms milk into froth in no time at all, or the Vapotronik® boiling system that brews coffee like it's hand made. Simply fantastico!

## FULLY AUTOMATIC COFFEE MACHINE – TIPS & TRICKS

Our fully automatic coffee machine **PICCOLA premium KV 8061** was the only appliance in the under 650 Euros price bracket to receive the **test rating GOOD** from Germany's "**Stiftung Warentest**". This latest award marks another step in our successful history, following on from this innovative product already having received the Plus X Award and the Kitchen Innovation Prize last year.

The appliance also gives the user **practical additional information**. The QR code on the product links the user's smartphone or tablet directly to

the PICCOLA "Tips & Tricks" website, which is optimized for use with mobile devices. Here coffee lovers will find **everything worth knowing about all aspects of their machine, covering subjects such as settings, coffee types, cleaning and flavour**.

# Kitchen

Unique innovations, award-winning product designs and many more highlights: Once again we won't be sitting on our laurels this year as far as the kitchen is concerned, and will again be surprising the market with real trend-setters that not only make cooking easier but actually re-define it. Such as James, the Wondermachine that does everything almost by itself. Or the sous vide, an excellent vacuum cooker that prepares meals perfectly by preserving their vitamins and flavour – the like of which was previously only available in professional restaurant kitchens. More than a dozen test verdicts in 2014 alone prove that our products are an excellent choice in every category.

2in1

Description	Deep Fryer
Art. No.	FR 2431
Colour/Material	brushed stainless steel
PU	display carton, 2 pcs.
Wattage	approx. 2000 W
Capacity	approx. 3 l

Features

- stainless steel housing
- removable enamelled oil/fat container
- deep-frying capacity approx. 400 g
- oil/fat container and fryer basket dishwasher safe
- variable temperature control up to 190 °C with safety cut-out
- removable stainless steel dust protection lid with inspection window and replaceable filter
- safety feature: heating element automatically switches off when removed
- power and ready-to-use indicators
- cable storage

Description	Deep Fryer
Art. No.	FR 2437
Colour/Material	brushed stainless steel-black
PU	display carton, 2 pcs.
Wattage	approx. 1500 W
Capacity	approx. 2 l

Features

- heat-insulated stainless-steel housing
- non-stick coated container
- load capacity approx. 300 g of food
- adjustable temperature control up to 180 °C with thermal safety cut-out
- power and ready-to-use indicators
- detachable lid with observation window
- lid with replaceable fat filter

Description	Deep Fryer
Art. No.	FR 2419
Colour/Material	brushed stainless steel-black
PU	display carton, 4 pcs.

Features

- heat insulated stainless steel housing
- non-stick coated container
- basket with removable handle
- deep-frying capacity approx. 350 g
- adjustable thermostat up to 180 °C with safety switch-off
- power and ready-to-use indicators
- removable lid with viewing window
- lid with replaceable filter

Description	Deep Fryer
Art. No.	FR 2433
Colour/Material	white
PU	display carton, 2 pcs.

Features

- heat insulated plastic housing
- handle to lower/raise basket with the lid closed
- push-button for automatic lid release
- 30 minute timer with buzzer
- non-stick coated container
- frying capacity approx. 500 g
- power indicator light
- ready-to-use indicator light
- thermal safety cut-out
- variable temperature control up to 190 °C
- detachable lid with viewing window
- replaceable filter in the lid
- lid opens at the push of a button
- cable storage

Description	Mini Deep Fryer with Fondue
Art. No.	FR 2408
Colour/Material	black-silver
PU	display carton, 6 pcs.

Features

- heat insulated housing
- non-stick coated container
- adjustable thermostat up to 190 °C with safety switch-off
- pilot light
- basket with removable handle
- deep-frying capacity approx. 200 g
- lid with viewing window and replaceable filter
- removable lid for use as Fondue
- removable splash guard ring with fork support
- 6 fondue forks

# Barbecue

Whether it's a summertime barbecue on the balcony or a wintry raclette or fondue indoors. It needs to be uncomplicated and effortless. Our electric BBQ grills (most of them Made in Germany) and fondue sets are perfect for these occasions. Just plug it in and off you go – they are already up to operating temperature. They produce flavour not smoke, and they're clean again in a jiffy. Because one thing's clear: Once you've finished grilling, you'll be ready to start again.

PLUG & GRILL!  
healthy and  
low-smoke barbecuing

NEW

Barbecue Grill with ceramic diecast grill plate  
PG 2794

## PLUG & GRILL – JUST PLUG IT IN AND OFF YOU GO

**PLUG & GRILL**  
healthy and  
low-smoke barbecuing

The advantages of electric grills are obvious. Where there's a power source, the appliance is **ready to use immediately**. Just pour water into the grill pan and plug in the grill. One particular benefit is the **short heat-up time**. You can start grilling after just a few minutes. Also impressive is how the electric barbecue grills are **simple to operate and clean**. A **low purchase price and low operating costs** (electricity instead of charcoal) are other plus points.

With an electric grill the fat does not burn. Instead it drips down into the water-filled grill pan. As a result there is **no unpleasant smell** to annoy the neighbours.

**Electric barbecue grills: Ideal for the balcony and for when you need a quick meal!**

In cooperation with:

# Household

That small household has grown and grown in recent years. And with it the mountain of washing. So our versatile appliances like the automatic steam irons are just the job. They iron the laundry almost by themselves, and make your everyday life that bit more colourful. And all that at an extremely attractive price. When it comes to price, our innovative floor care products, which compliment the range perfectly are no exception. No wonder then that our domestic helpers are selling like hot cakes and that the shelves are quickly in need of a refill.

## IRONING MADE EASY

Some do it while watching TV, others concentrate on it fully, some do it to relax, others reluctantly: Ironing – there's hardly a household anywhere that doesn't do it. But no matter how different their inclinations and preferences are, the demands placed on a **good iron** are the same. It should **work**

**smoothly** and provide a perfect result without any fuss.

Our irons are not only very visually appealing by virtue of **attractive colour combinations**, they also impress by being **very comfortable to use**.

## INNOVATIVE POWER PACKS TO COMBAT DUST

The **new floor care range that we have completely developed ourselves** sees us opening up a new chapter in the company's history. Efficiency, durability and safety form the core of our product concept. Just as second nature to us are high-quality materials, use of the lat-

est technologies and attractive surfaces and shapes. We attach particularly great value to comfort and practicality. Cleaning equipment is often used daily and should therefore feel good and be easy to use.

All Floorcare products can be found in our **separate brochure »Floorcare Range«** or on our website [www.severin-floorcare.com](http://www.severin-floorcare.com).

# Personal Care

The trend is your friend! That also applies to the current popular colours of our personal care products – from hair dryers to straighteners to curling tongs. Things that look that good are much sought after. That's because as everyone knows, the product's attractive appearance is transferred directly to the user – at least according to the psychology that's crucial to those purchasing decisions. Besides their appearance, another thing that of course also helps achieve a really good styling result is the outstanding technology of our products. You'll look your best with these products!

NEW

Hair Dryer  
HT 0140

## RETRACTABLE CABLE AT THE PRESS OF A BUTTON

A sufficiently long cable on the hair-dryer is essential for **to dry all of the hair** and to **put the style into shape**. But everyone will at some time have found that the cable somehow gets in the way once they've finished using the hair dryer. Our new **hair-dryer HT 0141** provides full styling performance

and tidy retraction afterwards, because its **cable disappears inside the housing at the press of a button once you've finished using it**. It also impresses with its **high-quality metallic varnish finish and modern design**.

### NEW

#### HT 0141

Description	Hair Dryer
